

SIMPLE. DURABLE. PORTABLE.

The cable dispenser that provides a simple method to support reels for trouble-free dispensing

EASY INSTALLATION

The Stud Winder installs on wooden 2x4 studs quickly and requires no tools. It can be easily adjusted to any height and moved to allow stacking. More than one Stud Winder can be positioned on a stud.

NO DAMAGE TO THE 2 X 4 STUD

The Stud Winder distributes the weight of the reel to a large surface so the wooden 2x4 stud will not be damaged.

COMPACT DESIGN

The simple, lightweight design allows for easy handling and repositioning while on the job.

ALL STEEL CONSTRUCTION

Each Stud Winder holds up to 110 pounds. The tubular steel construction provides lightweight strength. The locking hitch pin stays in place for trouble-free dispensing.

COMMERCIAL GRADE

All steel construction provide lasting quality. Powder coated finish allows for superior corrosion resistance.

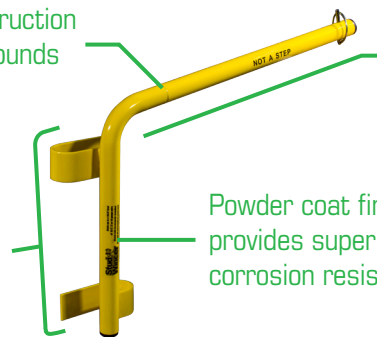

Tough, steel construction holds up to 110 pounds

Angled support bar creates drag keeping the reel from unraveling

No-Tool design takes seconds to install and reposition

Powder coat finish provides superior corrosion resistance
